

## My Learning Hub AUTHORING TOOL

### Empower Your Learning Experience

Create engaging, mobile-responsive courses effortlessly with our intuitive platform.

## Seamless white-labeling and content management

Creating courses for different audiences, with each having their own branding? No problem! Keep your training content on-brand and customise it in seconds.

### Apply Themes

Create your library of custom themes and apply them to courses as you see fit.

### Duplicate Courses

Copy your existing courses in one click, add client-specific brand details and share your training with a new audience.

### Export in SCORM

Export your content in SCORM 2004 to fit any learning system. Edit in the cloud and instantly update across all channels.

# Not a designer? No problem!

Explore our simple course-building assets that anyone, no matter their design skills, can use. Highly interactive content isn't rocket science.

## Clickable Image

Upload an image that flips to display relevant text on the back when users click on it.

## Carousel

Upload pictures and put text next to them. Users can scroll through using directional arrows.

## Accordion

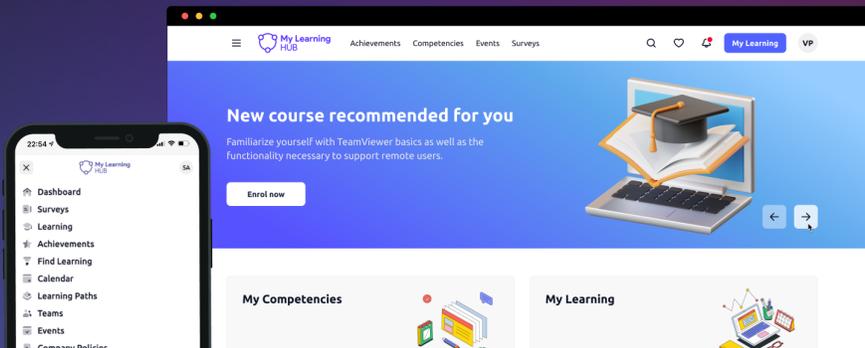

Replace a long text with a concise preview that users can click on to expand the text box for more information.

## Fill Blanks

Ask users to fill in the blanks in your text by typing the answer or selecting it from the multiple-choice options.
