

Revolutionize Your Training with HUBS

Empower Your Learning Experience

Your go-to solution for customized, centralized, and scalable training management.

Why Choose Hubs?

Hubs is a customizable knowledge center that empowers organizations to manage and deliver training effectively to their partners, distributors, and customers. Designed for simplicity and scalability, Hubs streamlines the entire training process from content creation to data-driven insights.

Data Insights

Get a detailed view on who accesses your Hubs – when, where, and for how long. Export as a report or see in real-time.

Management

Easily manage all your training content and keep track of your user activity via central reporting.

Access Levels

Stay in control of content and data as an admin but let your partners invite their users to access the relevant training..

White-Labeling

Customise our ready-made themes to your visual guidelines and stay on-brand with your training interface.

Key Features

Easy to Set Up

Create a dedicated learning hub in minutes and distribute your courses to all relevant users.

Maintenance-Free

Manage all your users from one central place instead of going through the same onboarding process for each hub.

Immediate to Use

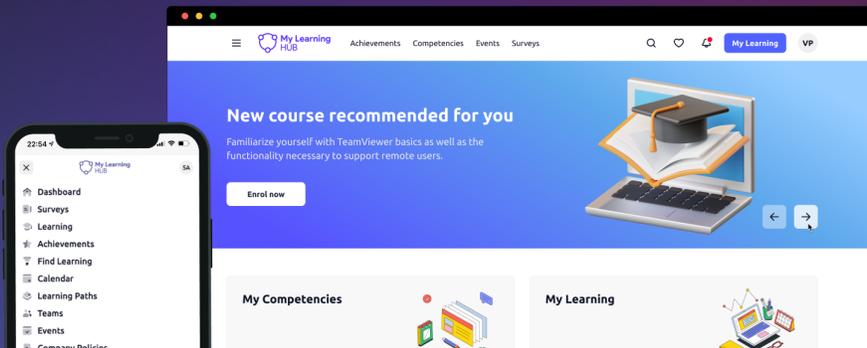

Upload your existing training content or create a new course from scratch using our course builder plug-in.

Scalable Pricing

Tiered pricing based on cloud storage instead of user number allows you to scale with no limits and grow your user base.
