

AI-Enhanced Virtual Coaching for Teachers

Empowering educators with personalized, research-based coaching to improve student outcomes.

Enhancing Classroom Impact Through Coaching

Sibme Virtual Coaches can help teachers with practically anything, to include the ability to:

Apply **evidence-based strategies** to increase student engagement

Improve **classroom management techniques**

Receive guidance on **differentiated instruction** to meet diverse needs

Learn to integrate **formative assessments** for **better student outcomes**

What to Expect?

Weekly 1:1 45-minute personalized coaching sessions.

Online feedback on teacher-submitted videos using the Sibme platform.

AI-generated reports to track progress and inform next steps.

Goal-related resources tailored to each teacher's needs.

Weekly coaching reports summarizing sessions and action plans.

Opportunities to engage in coaching focused on hand-off goals to inform instruction.

"My experience with my coach was a 10/10. She helped me so much with my classroom management & peer collaboration techniques. We were able to take a deeper dive into strategies on higher level student thinking. I would definitely recommend SIBME to any educator looking to improve in their profession!"

Bill Keenan Middle School Math Teacher Blockson Middle School, Norristown PA

6 Steps to Success

Sibme's 6-week coaching cycle supports teachers in implementing research-based best practices through:
